

# Wild Northumberland Glamping

## Tourism

Wild Northumberland Glamping was a business starting up in the hospitality field wanting to offer 3 new glamping pods on their site in rural Northumberland. The Ray Wind Farm Fund supported them to expand with a grant of £20,000.

Guests were able to take full advantage of the beautiful dark skies, the peace and tranquillity of the surrounding countryside in Ridsdale and the recently refurbished Gun Inn at Ridsdale as well as other local hospitality businesses and tourism hot spots within the local area.

The three pods have been popular with guests and created a part time employment opportunity and increased revenue for other local businesses.
