

Notes: a) Information on this plan is directly reproduced from digital and other material from different sources. Minor discrepancies may therefore occur. Where further clarification is considered necessary, this is noted through the use of text boxes on the plan itself. b) For the avoidance of doubt and unless otherwise stated. 1. This plan should be used for identification purposes only, unless otherwise stated in accompanying documentation. 2. The Natural Power Consultants Limited accepts no responsibility for the accuracy of data supplied by third parties. 3. The Natural Power Consultants Limited accepts no liability for any use which is made of this plan by a party other than its client. No third party who gains access to this plan is also shown as a line or feature by the Ordnance Survey, and that line or feature is located in a different position on the ground than shown by the Ordnance Survey, then the line or feature shall be deemed to follow the position as existing on the ground.

Project: South Kyle II Wind Farm, East Ayrshire
Title: Figure 8.6: Superficial Geology
Key Site boundary Proposed turbine Proposed crane hardstanding Existing track (to be upgraded) Proposed new track Proposed substation and battery storage Proposed temporary construction compound Proposed borrow pit Superficial deposits Alluvium - Silt, Sand and Gravel Glaciofluvial Deposits - Gravel, Sand and Silt Peat Till, Devensian - Diamicton
